## How the plan works

We are pleased to provide information about our vision care discount program, administered through Davis Vision, Inc., an independent company and leading national administrator of vision care programs. You may choose from Davis Vision's contracted private practice providers or contracted retail locations for discounted services. If you already have a vision examination as part of your health plan, you may use an ophthalmologist in your health plan network for your examination. Then, you may use a Davis Vision contracted provider for your frames, lenses and contact lens purchases to maximize your savings. Please verify with the Davis Vision contracted provider whether he or she accepts an outside prescription.

To receive eye care services, call the Davis Vision network provider of your choice and schedule an appointment. Be sure to identify yourself as a Davis Vision plan participant and a Blue Cross Blue Shield of Delaware member.
